## Experience

### ❖ Senior Associate | **EY(Ernst & Young)** | Talent Team (Feb 2025 – Till Now)

- Spearheaded Talent team-focused automation projects using Blue Prism and UiPath; conducted feasibility analyses on existing processes, identified automation opportunities, and successfully reduced operational costs by 25 percent with each automation.
- Automated and maintained processes such as termination processes, payroll monitoring, department shifts, job code updates, and more with precision and efficiency.
- Collaborated with functional team Teams to develop PDD, demonstrating proficiency in designing, coding, testing, deploying, and maintaining robots utilizing Blue Prism and UI Path.
- Implemented robust encryption and decryption protocols to secure sensitive client Personally Identifiable Information (PII) data during queue transmissions.
- Engineered a cutting-edge API and Blue Prism integration, utilizing Credential Manager and environment variables to safeguard user credentials in Blue Prism; bolstered security measures and optimized credential retrieval in UI Path, ensuring secure automation processes. Ensures reusable components are designed and developed where applicable(Like everyday BP Objects) to eliminate duplicate efforts.
- Optimized efficiency by automating repetitive data entry tasks using OLEDB, resulting in a 40% reduction in processing time. Expertly managed exceptions with recovery and resume stages activity, guaranteeing uninterrupted workflow and minimizing downtime by 50%.
- Managed Blue Prism Infrastructure, Control Room operations, overseeing scheduler configurations, bot monitoring, session management, and issue resolution for seamless automation execution.

### ❖ Systems Engineer | **Infosys** | Serviced Clients **Pepsico, Amex** (Dec 2021 – Jan 2025)

- All the above roles mentioned in EY, were performed by me in Infosys as well for Clients.
- Orchestrated the implementation of RE-Framework in UiPath, streamlining logging, exception handling, and application initialization; equipped the team to address intricate business scenarios effectively and efficiently, ensuring adherence to industry best practices.
- Conduct testing and debugging of automation scripts to ensure reliability and performance.
- Deploy and maintain automation solutions, monitoring their performance and making necessary adjustments.
- Provide technical support and assistance in production issues, troubleshooting issues, and resolving automation-related challenges.
- Document automation processes, including technical specifications, user guides, and training materials.

## RPA Projects

- **Employee Termination Process:** RPA solution in Blue Prism to automate the employee termination process, handling account deactivation, access revocation, exit documentation, and final settlements. Ensured compliance, reduced manual effort, and improved processing speed.  
**Type of Application Used:** All applications are web-based.
- **Card Replacement US:** Robot retrieves and validates card replacement data, initiates orders, verifies confirmation, notifies stakeholders, and logs actions/errors for auditing/reporting.  
**Type of Application Used:** 2 web applications, one mainframe application(For Stakeholder Comm.)
- **Taj Voucher Generation:** Trigger, Retrieve data, Analyze transactions, Generate vouchers, Prepare and trigger mail, Notify stakeholders, Log, and End.  
**Type of Application Used:** 1 web application, one mainframe application, and Outlook for Voucher Generation.

## ❖ **Technical Content Writer/Reviewer | JavaTpoint** **(May 2021 - Dec 2021)**

- Performed quality reviews on technical articles, ensured compliance with style guidelines, and proposed edits to improve writing clarity and accessibility.
- Coordinated with subject matter experts to discuss high-level concepts, enhance content quality, and translate technical terms into accessible language.

## Education

### ❖ **Master of Computer Application(MCA)** **(June 2022 - July 2024)**

- Indira Gandhi National Open University, Delhi | Distance Learning | Final Semester Result Awaited

### ❖ **Bachelor of Computer Application(BCA)** **(Aug 2018 - July 2021)**

- IIMT College of Management, Greater Noida | CCS University, Meerut | Percentage: 82 %

### ❖ **12<sup>th</sup> (I.Sc)** **(Apr 2016 – Mar 2018)**      ❖ **10<sup>th</sup>** **(Apr 2015 – Mar 2016)**

## Technical Skills

- |  |                               |
|--|-------------------------------|
| ❖ <b>RPA Automation(Blue Prism/ UI Path)</b>     | ❖ Python/Java                 |
| ❖ <b>UiPath RE-Framework</b>                     | ❖ MySQL                       |
| ❖ <b>Test Automation(Selenium and UiPath)</b>    | ❖ Control Room Exposure in BP |
| ❖ <b>WFM(Workforce Management Tool from UKG)</b> |                               |
| ❖ <b>ADO Utilization(Azure DevOps)</b>           |                               |

## Certification

- |   |   |
|---|---|
| ❖ <b>Blue Prism (Infosys Internal)</b>      | ❖ <b>UiPath-ADPv1</b>                     |
| ❖ <b>Infosys Certified RPA Professional</b> | ❖ <b>Selenium Basic(Infosys Internal)</b> |
| ❖ <b>Python Associate(Infosys Internal)</b> |   |

## Achievements

- ❖ Infosys Insta Awards(2 Times for Effective Client Deliverable)
